for everyone.

BEFORE YOU TOUCH THE DATA

Good analysis starts with understanding
the business.

Learn about the company

Who is Olist? What do they do today?

Understand their customers

Who uses their products and why?

Explore how value is created

Where do they make money?

What problems do they solve?

Identify business pain points

What challenges might they face?

Do your own research

Use the website, articles, and credible sources.

Be curious. Think independently.

BETTER
SOLUTIONS
TOMORROW

YOUR ROLE AT HVIA

You are not here to make charts.
You are here to understand a business.

HVIA
Data & AI Solutions

Think like a business analyst

Not just a data practitioner

Explore, question and find insights

Go beyond the obvious

Look for opportunities

What could HVIA offer?

Prepare a solution-oriented story

Like a real consulting partner

THE DATASET

Olist Store Dataset (Public)

A real, anonymized e-commerce dataset with **~100,000** orders from 2016–2018, covering multiple marketplaces in Brazil.

~100,000 real orders

2016 – 2018

Multiple marketplaces (Brazil)

Anonymized commercial data

Orders, products, customers, payments, reviews, freight, geolocation and more.

THE DATASET

DISCOVER THE DATA YOURSELF

Multiple tables. One big picture.

Your first job is to understand
how the tables connect — without being spoon-fed.

THE DISCOVERY MISSION

Go beyond the data. Find the story.

What is happening in the business?

Where are the frictions or challenges?

What patterns or trends deserve attention?

What would management need to understand?

What evidence supports your conclusions?

CURIOSITY TURNS DATA INTO OPPORTUNITY.

THINK LIKE A SOLUTIONS PARTNER

What could HVIA offer Olist?

After understanding the business and exploring the data, think about the real opportunities where HVIA can add value.

Find a problem worth solving.

HOW WOULD YOU APPROACH OLIST?

Turn your insights into a real outreach.

1 Research the right team / decision-maker
Use LinkedIn or the official website.

2 Choose a contact channel
(e.g., LinkedIn)

3 Write a short, personalized,
value-led message

4 Include one evidence-backed idea
from your analysis.

5 Propose a short discovery call.
